# STONY PLAIN SUN.

VOLUME TEN

STONY PLAIN, ALBERTA, THURSDAY, APRIL 17, 1930.

Whole Number 506

- 1 Second-hand Range, nearly new.
- 1 Second-hand 14-inch Gang Plow, cheap for cash.
- 1 15-25 Rumely Tractor, in good shape, or will trade this on Quarter of good land.
- 6 45-gallon Steel Drums, \$3 each.
- 1 45-gallon Oak Barrel, \$2.50.

## Stony Plain Hardware.

### TO BENEFIT YOU !

Long experience has proved to farmers that they do benefit by making use of U.G.G. elevators.

They know that this Company has the resources, organisation and equipment to give to farmers the best possible service and treatment.

DELIVER YOUR GRAIN TO

**UNITED GRAIN GROWERS LTD.**

Elevator at Gainford.

### NOW OPEN ! HOME BAKERY !

Main St., in the old Drug Store.

Bread and Pastry, etc. Best Quality, Fresh Daily.

GOTTLIEB HERT, PROPRIETOR.

### PROTECTION !

for your home is a necessity which can best be secured with sound

Fire Insurance. Insure with

**George F. Harris,**

Representing Only Standard Board Companies.  
18 Years Agent in Stony Plain District.

751 Tegler Bldg., Edmonton. Phone 636.

### Mr. Car Owner :

After winter driving, your Car will at least need the following attention—

1. Charging rate of generator adjusted.
2. Rear end transmission lubricant changed to summer grease.

3. Brakes adjusted.

Our Garage is fully equipped to handle any overhaul job on your Car. We can tell you how much the job will cost you before we do it.

**E. H. PIDGEON,**  
BUICK - MARQUETTE - PONTIAC CARS.  
SALES and SERVICE.

### Stony Plain and District.

Mr Fred Schellenberger, who is holding a clearance sale on Thurs. April 24th, is up in Wembley this week.

Miss Sarah and Alee Wainberg, Edmonton, and Mr Sol Wainberg, Bashaw, were Sunday visitors at the Comisarow home.

Mr Geo Koebel, who spent the winter in Stony Plain, left Monday for the Coast. After a short stay there, he will tour the U.S.A., on his way back to Germany.

Mr Roy Alton will open his "Service Hardware" store in Edson on Sat. April 6.

Mr O Oppertschauser motorized down from Rochefort on Sunday.

The first Confederation train is due to arrive in Stony on Tues. May 19.

Mr Gottlieb Hert has opened a bakeshop on Main St. in the building formerly occupied by Mr J F Clarke, druggist, and will have on sale the different varieties of bread and assorted pastry. The new shop is called The Home Bakery.

The local Board of Health is calling for tenders to clean all the toilets in the town, to be paid for at the expense of the town.

### Another M.L.A. Aspirant.

When the Provincial election is called to take place it looks now as if this constituency is to have its usual quota of four candidates. Mr Lent of Duffield has spent several of the past weeks canvassing this riding, as to the prospects an Independent Farmer candidate would have.

Mr Lent has just finished his labors in Stony Plain district and reports that he has been given every encouragement as to his candidature.

Mr Lent's first plank in his platform is Economy (with a big E), a reduction in the load of taxation with which he says we are at present encumbered, and the total abolition of such assessments as the Supplementary Rev. tax, gasoline tax, etc. He claims the present government has not lived up to expectations in its good roads program, as there are miles and miles of roads yet to be put in good running order.

Mr Lent is an old resident of Duffield district, having arrived there in 1900 as a missionary teacher on the I. R., afterward teaching at Smith field and Mewasin schools. He retired from teaching and farming a few years ago, and now intends to devote himself to public service.

## The Problem Of Unemployment

The nations of the world, and more especially those of the white race, and of those of the most highly industrialized, are confronted with a common problem which is becoming increasingly acute, namely, unemployment, resulting from a lack of gainful employment for hundreds of thousands of people, able, willing and competent to work, but who are unable to secure it.

The present situation is a paradox. No less competent an authority than the United States President's Committee on Recent Economic Changes reaches the conclusion that the rise in unemployment in recent years is not so much the result of recession in industry, closed factories and general depression—usually advanced as causes of unemployment—as it is the direct outcome of prosperity itself.

In other words, the intensifying activity which has characterized progress in the past decade has likewise intensified, and in a sense created anew, one fundamental economic problem—the problem of unemployment.

The problem of unemployment has been recognized since the war as a serious one in Great Britain, and greater publicity has been given to the British attitude on this question. The family benefit system in Britain, with its schemes of unemployment insurance, facilities existed for obtaining a more accurate accounting of the actual number out of work. It is now becoming more generally known that the percentage of unemployed to population is almost as high in many other countries, and higher in some. And the number of the enforced idle is increasing, until it is now estimated that 20,000,000 or more throughout the world are unemployed. The situation in Canada is decidedly better than it is in the United States. Great Britain, Germany, Italy, and most other countries. Even so, unemployment is a subject of growing concern in this Dominion to all Governments, municipalities, labor organizations and business interests in general.

Of course, in a young and developing country like Canada, and particularly in view of its long winter months which necessarily slow up many of our major activities, there always has been and, in all probability, always will be seasonal unemployment. That is unavoidable; and those engaged in occupations which must slow up, or be temporarily suspended in the winter, must, like the farmer, earn a sufficient amount in the months of activity to carry him through the slack period.

But why, following one of the most active years in the industrial history of Canada, with building construction records greater than ever before known, with development works of all kinds in progress, the unemployment situation in the winter of 1928, at a high peak, which was the unemployed problem more acute than ever in the late fall and winter months? The answer cannot be found in any one thing, but is made up of many factors.

Let us consider Western Canada alone. In 1928, with a record crop volume of low grade, this country had to import over 50,000 harvesters, thus providing temporary employment which benefited the whole country. In 1928 it was not necessary to import any harvest help, partly because of a 50% reduction in grain yield owing to drought conditions, but also largely because combined reaper-thresher machines, coupled with the use of motor trucks on a large scale, eliminated the work hitherto performed by manpower.

Decreased volume of production resulted in a heavy falling off of railroad freight movement, and with it a large decrease in railroad employment which was aggravated by the general turn in the wheat market. All down the line business was affected adversely, and unemployment grew.

In grain, take railways. Every year witnesses increased traction power of locomotives. In the United States the tractive power of locomotives per railway employee increased 11 per cent. in the seven years between 1913 and 1920, but 35 per cent. in the two years between 1925 and 1927. Here in Canada, the C.P.R. and C.N.R. are introducing large locomotives of great tractive power, and the result is that one engine can pull a long single train which not many years ago would have called for the operation of two or three trains. Thus the number of train crews is lessened.

Cheap electric energy distributed all over the country, with a multitude of new industries, electrical, chemical, hundreds and thousands of small industries whose work was done by hand.

But, it will be said, great industries have been built up as a result of new inventions which now employ hundreds of thousands, as, for example, the automobile industry, and its contribution to the trade. It is the reduction of the manufacture of carriages, buggies, farm and other wagons. The making of harness is fast disappearing. The village blacksmith is almost extinct. On the one hand the automobile industry provided increased freight traffic for railways; on the other hand it takes both freight and passenger traffic away from them.

One motor truck does the work of several horse drawn wagons; one combine replaces two horses, threshing out a score or more at a time; one tractor can manage a score or more at a time. A motor driven pump above a ditch digger supersedes a small army of laborers. The radio has silenced many a piano and phonograph. The moving picture has closed up the theatre with its travelling shows in all but the largest cities, and the "talkies" with them are finding the work, as well as throwing thousands of men and women engaged in the picture and moving pictures orchestras out of work. Each picture is its own orchestra.

Mass production aided by wonderful new machinery turns out products of all kinds in ever increasing volume, employing one man where formerly a score, four or five, were required. This one man, recently installed, enjoys a higher standard of living, but his high wages are but a mere fraction of the cost of production with cheap power, machinery, and mass production, the main factors of cost. So while he and others prosper, and the people who are employed thereby, the mass of the unfortunate are left in distress. With no work to be found which by previous training and experience are best fitted, they find all other avenues closed to them, and the same process is at work elsewhere.

What is the solution? No man yet knows. It will be found, because it must be. The continuance of civilization depends upon it. In a word, as one writer puts it, something of the same kind of engineering efficiency which has brought about these displacements of man-power will have to be applied to the problem of finding openings for competent men where they are needed.

An old temple bell has been restored to Japan by a Swiss museum as a token of loyalty to the League.

### Make Many Tests

Every year the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for government departments or for the general public. A certificate is given with each thermometer which successfully passes the required tests.

Minard's for Falling Hair.

### Invention For Blind

Standard Typewriter Keyboard Can Be Converted Into Braille System

John Lemp, Tavistock druggist, has completed an invention whereby the keyboard on any standard make of typewriter may be converted into a Braille system keyboard for blind persons, who may wish to take up stenography.

The invention consists of a set of brass caps, embossed with Braille letters and figures instantly detachable.

Mr. Lemp, who has a blind daughter, has offered the invention free to institutions for the blind.

### A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for the body, and especially here in Canada. Many men, women and children go through the winter on reserve strength they have stored up during the sunnier summer months, and grow increasingly pale and languid as the spring days approach.

A tonic of the blood and nerves at this time will do much for the body, especially by patting the cheeks and keeping that tired feeling which worries thousands of people of this season of the year.

It is important to be energetic if you are blind, and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshment, sleep at night, or if your appetite is poor. You are losing weight. You need a tonic at this time to add to your efficiency now, as well as to give you a sufficient ration for the winter.

And in the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills stimulate and tone up the blood circulation throughout every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Center, N.S., writes: "These pills have been of great benefit to me. I was in a bad run down condition. I became very weak and nervous, and I was never so bad as I was. I have been taking a few pills every day, and I am in a very encouraged condition when I begin to take them."

Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I feel greatly improved by my health. I have also taken a few pills in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Use Good Seed

In the opinion of a successful farmer and grain exhibitor, registered seed or seed closely traceable to registered is preferable because it produces uniformity in ripening, in appearance and in the shape of kernels. Impure or mixed seed is sure to produce a sample with different types and lacking in uniformity.

**Your Home Medicine Chest**—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. It is a valuable liniment in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic pains, treating sore throat and chest, coughs, burns, scads, cuts, bruises and sprains.

### Large Deposit Of Diatomite

The largest deposit of diatomite in the Dominion at present known is in the vicinity of Quensel in central British Columbia, where material of pure grade occurs in beds forty feet thick that extend over a huge area.

No one need endure the agony of corns with Holloway's Corn Remover to hand to remove them.

Ruins of an old Roman wharf, where no doubt the emperors' pleasure galley were once moored, have been found at Lake Nezi.

Minard's has Wonderful Antiseptic Power.

W. N. U. 1838

### New Line To Bay Shortens Route

Sturgis Cut-Off Will Be Ready For Operation Early In May C.N.R.

Construction work on the Sturgis-Hudson Bay Junction branch line of the Canadian National Railways will be finished about May 18, and the line will be turned over to the operating department on that date. An announcement to this effect was made recently by A. E. Warren, western vice-president of the company.

A very considerable saving in time and distance between southern Saskatchewan and the Hudson Bay Railway will result with the completion of this line and the opening of it for regular passenger and freight services. Between Regina and Sturgis and other southern points in Saskatchewan there will be a lessening of 94.6 miles over the existing route from those centers to The Pas. Intermediate points such as Melville and Yorkton will also be brought considerably nearer to The Pas and the Hudson Bay Railway.

Until the Sturgis-Hudson Bay Junction line goes into operation the route from Regina to Hudson Bay Junction is via Swan River, a distance of 429.6 miles. The distance by way of the new route which lies through Melville, Yorkton, and Canadian River is 334 miles.

Passenger and freight train services will now be under consideration by the departments concerned but it is not expected that an announcement on train service will be made for a few weeks.

The Sturgis-Hudson Bay Junction line was one of those included in the three-year branch line programme which was passed by parliament in 1927. Although it is practically the last item on that programme to be completed, the date upon which it is to be turned over for operation is set more than six months ahead of that by the bill. This adds to the expense involved in engineering the line of the Western branch of the Canadian National Railways by completing all its construction work months ahead of the limit set by parliament. The laying of steel to Churchill and the completion of the Flin Flon and Sheridan Railways and the Aberdeen-Melfort branch line are other examples.

### Combines In Western Canada

The successful introduction of the combine into Western Canada by the Dominion Experimental Station at Swift Current, Saskatchewan, in 1923 has aided materially in establishing this system of harvesting in the Prairie Provinces. Since its introduction in 1922, the use of the combine has spread till in 1928 over 3,650 combines were sold in Western Canada.

### Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

**VICKS**  
VAPORUB  
OVER 14 MILLION JARS USED YEARLY

### New "Ice" Discovered

New Liquid Yet Unnamed, Boils At 18 Degrees Below Zero

Discovery of a new refrigerant which, it is held, will bring about a vast improvement in living conditions, has just been announced by the division of industrial and engineering chemistry of the American Chemical Society.

The refrigerant as yet unnamed, is a mixture of carbon, chlorine and fluorine and is technically known as fluoro-chloro-methane. It is a clear white liquid, boiling at 18 degrees below zero Fahrenheit. Commercial production, the announcement said, will probably not be practicable for at least two years.

### Saskatchewan Coal

Saskatchewan's coal production in 1928 was more than 100,000 tons higher than in 1928, and created a record for the province. Total production was 568,759 tons as compared with 464,428 tons in 1928.

## Practice Of Inoculating Seed Of Various Legumes Has Been Found To Be Beneficial

During the past few years practically all Ontario farmers have come to recognize the value of inoculating the seed of the various legumes when they are being grown on land which has not previously been sown to these crops or on land where their cultivation has lapsed for a period of years. This practice has proven a good one and is now used in every progressive agricultural country of the world, but the discovery of a proper method of getting the inoculation or culture to the farmer was not done in a day and the history is rather interesting.

The first efforts in this direction were made in Germany where samples of the soil which had been used for growing the legumes was transported to the virgin soil and there spread around to insure the presence of the bacteria. The disadvantages of this method were obvious and a commercial concern sold a large number of prepared cultures which were found to be valueless. Agricultural colleges and experiment stations in the various countries worked on the problem for a number of years; at one time the Department at Washington believed they had a successful method of growing and sending out the bacterial cultures, but it proved a failure.

It remained for the Department of Bacteriology at the O.A.C. to devise the proper method and the culture advised was soon adopted as the one best suited for the work. The familiar bottle, half filled with a white substance is the outgrowth of this discovery and the bacteria on this culture will live almost indefinitely. Each legume has its own particular culture and the one that is supplied for alfalfa is of one for inoculating red clover and vice versa. Since the discovery, the Department of Bacteriology has supplied something over 100,000 cultures to farmers requesting them at a nominal charge of fifty cents.

A question frequently asked is, when is inoculation required and for what crops? The common crops requiring inoculation are alfalfa, red clover, sweet clover, peas, field beans and soy beans. Inoculation should be practiced where the crop is to be grown on soil that has never before produced that particular crop and in general if it has not produced a good yield of the said crop within the past four or five years.

The Department have not claimed unfailing increases after the use of the inoculation, but it has been generally assumed that in about seventy cases out of every hundred there will be a substantial increase and reports have shown that in the case of the other thirty per cent. the bacteria were probably already in the soil and the inoculation thus rendered unnecessary.

It is interesting to note that rich soils which are very high in nitrogen will often produce good crops of legumes for the first time without inoculation. The reason for this is that the bacteria used in inoculating have as their function the converting of the nitrogen of the air into a form which the plants can use and in nitrogen rich soils the soil nitrogen is used when the bacteria are absent, thus seriously depleting the soil but not giving any noticeable effect on the plant.

### Would Curtail Production

#### Effort Made To Reduce Spring Wheat Planting In United States

Two United States government preachers of the gospel of curtailed production as the only real salvation of wheat farmers made ready in Chicago to speed over the great spring wheat area of the northwest in a last-minute effort to forestall the planting of wheat on at least 2,000,000 acres.

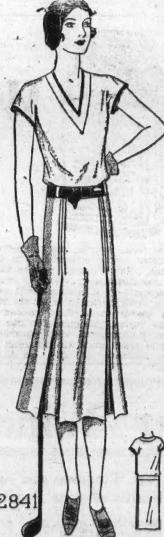

The two men were Dr. John L. Coulter, chief economist of the tariff commission, and James Howard, federal farm board representative and former president of the National Farm Bureau Federation.

Their final plan for the intensive campaign by which they hope to reverse spring wheat acreage by 10 per cent., were made in conference recently with Alexander Legge, president of the Farm Board.

### Winnipeg Newspaper Union

By Anabelle Worthington

2841

It's typically sports! A charming wearable type that adapts itself to all the season's new fabrics.

Several styles may be made from this. Style No. 2841 and each one appears entirely different.

It is sketched in wool jersey in pastel green with dash of soft bows in the bust. A knitted neckband gives smart finish to becoming collarless Vionnet neckline.

comes in sizes 16, 18 years, 36,

### Serious Problem For Cattle Committees

#### Herdsman Said To Be Resorting To Knife And Needles For Show Ring Purposes

The Farmers' Advocate says: Cattle committees who outline the policy and lay down the rules which govern exhibitions in Canada are giving earnest thought and consideration to the serious problem of detecting and banishing "doctoring" cattle. The large exhibits from both East and West, realize that something must be done to prevent the public being hoaxed by super-expert herdsman who are able to use knife and needle in beautifying their cattle. It is a practice that should be neither condoned nor permitted and the fair boards are acting wisely in their attempt to ban the doctored animal and the exhibitor who uses such animals for competition.

One suggestion is that all cattle be inspected by a veterinarian before entering the ring. This entails much unnecessary work and any simply led back into the stable to be presented at future shows or exhibitions held elsewhere. It becomes necessary to inspect only a few cattle, the champions and reserve champions, and the fear of exposure after winning such honors would deter any exhibitor from going to undue lengths in treating or preparing his animals for the show-ring. It is not the cattle that win third, fourth or fifth place in a class, or are outside the prize money altogether, about which a fair board needs to worry. Not one in a hundred of them receive more than ordinary fitting; it is the cattle that are winning high honors in the show-rings of Canada and the United States that need watching. Neither would we wish to impinge on all cattle that win championships are dishonestly fitted or treated. Many breeders and exhibitors would condone no such practice; but it is known that herdsman are resorting to the knife and the needle, and fair boards cannot overlook the fact.

### Information Wanted

Mrs. Newleyed: "Oh, I wish these recipes would be more definite."

Mr. Newleyed: "What's the difficulty, my dear?"

Mrs. Newleyed: "Well, this one tells how to use up old potatoes, but does not say how old the potatoes must be."

The cougar, while very aggressive among the lower animals, exhibits an intensive fear of mankind.

## State Of Canadian Business Is Fair In Comparison With Conditions In Other Countries

### A Good Slogan

#### "An Acre Of Alfalfa For Every Cow" Takes On New Meaning

"An acre of alfalfa for every cow" is a slogan adopted in many districts where live stock is kept, and with modification to suit local requirements it is one which receives strong support by the Dominion Department of Agriculture. With the short crops and difficult seasonal conditions of 1928 and 1929, the need of adequate provision with respect to fodder crops became more apparent. Not only will the application of this slogan to alfalfa, or suitable clover or hay crops, go far to meet the present situation, but it would also provide a useful and profitable rotation medium for keeping soil in good condition, and assist in weed control. This scale of planting not only provides adequate pasture but allows a surplus for feeding to other farm animals and often provides a carry-over of hay to a lean year.

### More Milk Is Used

#### Consumption Per Capita Has Practically Doubled In Canada

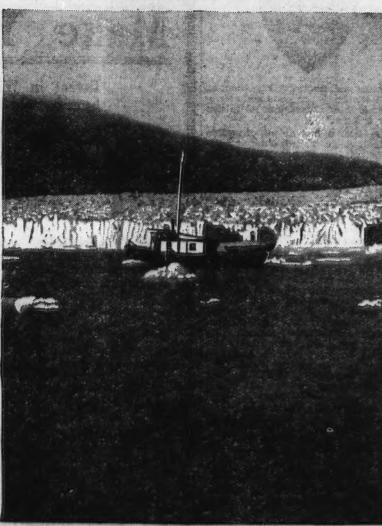

During the past eight years domestic milk consumption per capita has practically doubled in Canada. The Dairy and Cold Storage Branch of the Dominion Department of Agriculture attributes this increase to the growing demand of the sweet milk trade and to increasing popularity of ice-cream. Canada's exports of dairy products have declined materially, and this has been due in part to the increasing domestic consumption and in part to the large numbers of high quality milk cows which have been sold to United States buyers and gone out of the country. In this connection it is noted that there were approximately 100,000 foreign milk cows in Canada in 1928 than there were in 1927. Canadian dairymen are realizing the economic danger of the situation, however, and few sales of high grade milk cows are now reported.

"Mother, isn't your hair permanently waved?"

"My dear, what makes you ask such a thing?"

"I've been thinking. Why can't I have my neck permanently washed?"

### THE TAKU GLACIER

This ice field, one of the largest in the world, is one of the many wonders which are to be seen on the route of the Canadian National Steamships between Vancouver and Skagway, Alaska. All of the three in this service, the "Prince George," "Prince Rupert," and the new "Prince Henry" pass within a stone's throw of this glacier, the height of which can be judged by the fishing smack in the foreground. The glacier is 90 miles long and only about one-quarter of its width is shown in the photograph.

Whilst the state of Canadian business is uneven and may be regarded as disappointing compared with that of a year or two ago, it is fair in relation to world conditions, declares the monthly commercial letter of the Canadian Bank of Commerce. Canada's unemployment problem, though by no means negligible, is not nearly so acute as in some of the older countries, the letter points out.

During the month of March business conditions showed a gradual accession in industrial and construction operations, which tends to offset the stagnation in other branches of commerce, says the bank's letter.

"We have mentioned before that the reduction in agricultural purchasing power would leave its mark on the economic structure and this has proved to be the case. Until the farming community experiences favorable weather and market conditions, business as a whole will continue on a smaller scale than in the four preceding years. However, Canada is fortunate that capital expenditures on development projects continue in large volume."

In the matter of European trade the bank's letter remarks that with the prospect of further substantial progress, Europe seems to offer good opportunities as an export market for those Canadian commodities which require an expanding market owing to Canada's increased productive power.

### Prairie Cat For Peace River

#### Cannot Procure Right Type Of Cat In British Columbia

The cattle suitable for sale on easy terms to settlers in the Peace River area have been found on prairies and with the purchase thereof, Hon. William Atkinson, Minister of Agriculture, announced on his return to Victoria from a prairie tour. "There may be some surprise that we are not securing these cattle in British Columbia for our northern settlers," said Mr. Atkinson. "The fact is that we cannot secure here the type of cattle which these people must have for their conditions. What is required is a general purpose animal. Our fine dairy cows would not endure the cold there. It is necessary therefore to secure such cows as are to be found on the prairies only at this time."

Mr. Atkinson proposes to send experts of his department to the prairie shortly to select the animals which will be moved north in May to Peace River people. Probably about 150 animals will be sent this spring.

### Ten Thousand Stings By Mail

#### Now Possible To Send Package Of Bees By Mail

With the improved technique which has been developed for the handling of package bees it is now possible to send them by mail, and the bee experts of the Dominion Department of Agriculture find that very satisfactory results are obtained by apiculturists through the use of package bees to replenish weakened colonies and to establish new ones. The bee package is a wire-covered wooden frame usually containing two pounds of live bees. There are some five thousand bees to a pound. A shipment by mail is now possible and should a package of bees become broken open in transit ten thousand stings is the potential result.

"I hear your brother has married his deceased wife's sister."

"Yes, he wanted another wife, but not another mother-in-law." — Karikaturen, Oslo.

## Stops a Cough In One Night

A cough may be Catarrhine with a dry tickling in the throat. It may be accompanied by partial stoppage of the nostrils and shortage of breath. Often there is a gurgling in the throat, and every cough tears and hurts.

Coughs have a hundred different causes, yours may be due to any of the following:

**Asthma** Inflamed Throat  
**Exposure** Bronchitis  
**Excessive Tonsils** Pneumonia  
**Inflammation** Croup  
**Stomach Disorder** Pleurisy

One remedy upon which physicians are relying today is Catarrhizone. It removes the cause of the cough, doesn't smother it.

It's simply wonderful to think how quickly a bad throat or catarrhin can be stopped with Catarrhizone. Its rich, honey-like taste is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the seat of the trouble to live. The soreness in the chest is at once alleviated — phlegm is loosened and ejected from the throat, old stand-ing.

**REMEMBER THIS**, this breath Catarrhizone and it will alleviate coughs, colds, catarrhin, and weak throat. Large size, guaranteed, \$1.00, and lasts two months; smaller sizes, 25c and 50c. Beware of imitations and insist on "CATARRHO-ZONE."

## WORLD HAPPENINGS BRIEFLY TOLD

On its annual arctic cruise this summer, the S.S. Beothic will endeavor to reach Melville Island, situated 360 miles beyond the most westerly point yet reached by steamship.

Prominent railroader, pioneer of the West, and veteran of the Rebellion, W. H. Tomkins, 68, died recently at his home in Winnipeg. He was captured and held prisoner at Batoche, Sask.

Rt. Hon. Montagu Norman was re-elected governor of the Bank of England. This makes the eleventh year in which he will fill the office of governor to which he was first elected in 1920.

J. R. Nesbitt, of Shoal Lake, prominent citizen, has been awarded an honorary diploma from Manitoba Agricultural College. The honor follows the established custom of honoring in each year one outstanding man in Manitoba's agriculture.

In a motion adopted by city council, of Toronto, police commissioners have been asked to prohibit the operation of a "bad and doubtful debt" collecting car, whose driver, clad in a brilliant uniform, with his gaily decorated car parked in front of homes of debtors, drew a good deal of unwelcome attention.

Ralph Hull and Ralph D. James, of Vancouver, students at the University of British Columbia, have been awarded mathematical scholarships, valued at \$1,000 each, by the University of Chicago. These are the first awards of the institution to Canadian students who plan to specialize in mathematics.

As a vermifuge an effective preparation is Miltom's Granule Worm Exterminator, and it should be given to the most delicate child without fear of injury to the constitution.

### Many Uses For Spruce

The wood of all Canadian spruces is tasteless and odourless, making it valuable for food containers. It is also in great demand for musical instruments, principally for organ pipes, piano sounding boards, violin backs, etc.

Seventy pieces of wood go into the making of a violin.

### Dandruff

You needn't be bald. Minard's Dandruff, checks falling hair, stimulates new growth and gives a healthy gloss. Rub into scalp with finger tips, four times a week.

W. N. U. 1833

## SUNDAY SCHOOL LESSON APRIL 20 JESUS TEACHING FORGIVENESS

Golden Text: "Forgive us our debts, as we also have forgiven our debtors." — Matthew 6:12.

Lesson: Matthew 18:15-35.

Devotional Reading: Psalm 32:1-7.

### Explanations and Comments

How To Treat Offenders, verses 15-20—Jesus' parable about the Good Shepherd, illustrating His care for those who go astray (our last lesson) is followed in this lesson. Good is His name, in regard to man's treatment of offenders. He advised His disciples first to tell the offender of his fault, then to rebuke him in the presence of two or three others, and then, if he still gave no heed to their words, to tell his offense to the Church. "When a man is three and gives no heed to the name," he said, "then am I in the midst of the world."

Unlimited Forgiveness, verses 21-22—Peter's question about forgiveness, and Jesus' answer: "Lord, how often shall I forgive my brother if he sins against me? Shall I forgive him until seven times?" Seven denotes the perfected number. Peter's heart was full of self-sacrifice, but Jesus said he was not ready to go much farther in forgiveness of the ordinary man! Did not that Talmud say: "He who forgives seven times, forgives all"? Jesus' answer: "Not until seven times, but times without number, until seventy times seven." Magnanimity is the key to the secret of success.

Peter himself was an illustration of the grace of unwearying forgiveness. He sinned, and sinned, and sinned again, but when he met Jesus after Christ's death saying to himself, "O to grace, how great a debtor, I daily am constrained to be," Jesus said: "Go and again take him to the text and preaching a sermon of comfort and hope to downcast and despairing souls."

"O Man! forgive thy mortal foe, Nor ever strike him blow for blow; For he is not thy mortal foe that live. To be forgiven must forgive."

Forgive him seven times and seven;

For all the blessed souls in heaven Are both forgivers and forgiven."

—Tennyson.

**Heart and Nerves  
Caused Her To Have  
Cold Hands and Feet**

Mr. Joseph Price, Red Pine, N.B., writes: "Several years ago I was troubled with my heart and nerves and was so bad, at times, my hands and feet would become numb and cold."

"I happened to see

advertised and started taking them at once. I continued for some little time, and since then I have had no return of trouble."

Price, 50s, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Miltburn Co., Limited, Toronto, Ont.

Doctor: Your throat is in a bad state. Have you ever tried gargling with salt water?

Sailor: Yes, I've been shipwrecked a dozen times.

**Persian Balm**, cool and refreshing. Soothing and protective. The aid to beauty. Unrivalled in its softening and beautifying qualities to the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth and free from flaws. Use it for the hands and face. Always results in the highest expression of beauty.

### Income Tax Collections

A total of 137,101 persons paid income tax during the fiscal year ended March 31st, 1929, and the sum collected was \$38,422,322.25, the largest amount yet gathered in by the Federal authorities. In 1928 there were 215,271 taxpayers who paid in \$55,571,961.57.

### Strengthening Butter Boxes

Recent tests on butter boxes at the Forest Products Laboratories, Department of the Interior, showed that one wire applied around the centre of the box doubles its strength.

Minard's Will Stop That Toothache.

## DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in future, with bromides and dopes. They relieve quickly but affect the heart and are very dangerous. They give temporary relief, the cause of the headache remains with.

The same and harmless way. First correct the cause, sweeten the sour stomach, then give the patient a few times of the decoction and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes the headache. Try 25c a little Liver Pill. Druggists 25c red pills.

### Carloads Of Horses

Animals Being Assembled At Moose Jaw For Spring Work

Under the management of the Saskatchewan Stockmen's Association, Livestock Producers, Limited, the horse marketing section of that organization is undertaking to assemble carloads of horses at the Moose Jaw yards in readiness for spring work. With the aim of improving the condition of these horses they will be fed for a few weeks before offered for sale. This affords buyers an opportunity to visit the yards and select their teams.

**Asthma Cannot Last** when the greatest of all asthma specifics is the Dr. J. D. Keating's Asthma Remedy absolutely deserved its exalted title. It has to its credit thousands of cases which other preparations have failed to benefit. It helps to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

### Does Away With Noise

Contractors In London Use Silencer On Road Drill

Equipped with a silencer which eliminates more than half the noise and much of the vibration, a pneumatic road drill attracted much attention when exhibited recently in London. It was made for the use of contractors who meet with protests against the noise made by the ordinary drill exhaust. The silencer, clustered around the centre of the drill, are designed on the principles of the motorcycle silencer.

### Will Combine Exhibits

Saskatchewan, Manitoba and Alberta will combine their exhibits at the World Poultry Congress to be held in London, England, next July. The exhibit will occupy a frontage of 36 feet and will be the largest of the provincial exhibits.

### Experiment a Success

Complete Newspaper Page Sent By Radio From San Francisco To New York

The complete front page of a newspaper has been transmitted across the country by radio for the first time.

Giving the present a peep into what may be commonplace in the future, engineers of the General Electric Company at Schenectady, N.Y., reported that successful experimentation had permitted them to read the first page of the San Francisco Call-Bulletin three hours after it had left the press. It was reproduced in full size in the laboratory of a new type automatic carbon receiver, connected to short wave receiving equipment actuated by signal originating 2,000 miles away.

The engineers did not hesitate to forecast many possibilities for this improvement in facsimile transmission, which, still in a highly experimental stage, gave an indication that some day radio may be delivering a large part of business mail and may also bring daily newspapers directly into the home.

### Canada's Oldest Men Dead

Within a period of less than three weeks death claimed the two oldest men in Ontario, and two of the oldest in Canada. James Wilson, 109-year-old negro, died at his home in Welland, Ont., and two weeks later at St. Joseph's hospital, Peterborough, James Hendley, of Peterborough County, died in his 109th year.

Inquiry by experts of the Mayo Clinic indicates that rheumatic persons can "sense" the approach of rain.

## NO MORE ECZEMA

Itching Ends in 1 Minute  
"Bad eczema for years. Single application of 'Spoon's Compound' stopped itches in 1 minute. I had ended disease for good." Jane Paula, 18, of New York, N.Y.

I have known, of course, that you were known. Itching stops instantly. All druggists.

### COUGHS & COLDS

Dangerous complications can quickly develop if coughs and colds are not treated.

Dr. J. D. Keating's Asthma Remedy

Presented by the owner-creator, where, I am by the way, for over 25 years. On sale at Drug Stores for 9c and 12.5c per bottle. Send 10c for sample.

FREE SAMPLE sent on Request. Write today!

SPOHN'S COMPOUND

Presented by the owner-creator, where, I am by the way, for over 25 years. On sale at Drug Stores for 9c and 12.5c per bottle. Send 10c for sample.

FREE SAMPLE sent on Request. Write today!

SPOHN MEDICAL CO., Dept. V-7, Goshen, Ind.

Carloads of scrap films from Hollywood are shipped to refineries so that the silver in them may be recovered.

### Children Cry for Fletcher's CASTORIA

A BABY REMEDY APPROVED BY DOCTORS

FOR COUG. CONSTIPATION, DIARRHEA

Ask Your Dealer to Show You STEWART Clipping Machines

## When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated and too much acid is produced. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. The new method is the best method when once you learn the efficacy of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia. It is the only preparation of its kind in the world. It has been in continuous use for 50 years in correcting excess acids. Each bottle contains full directions — any druggist.

## Make Your Windows Pay

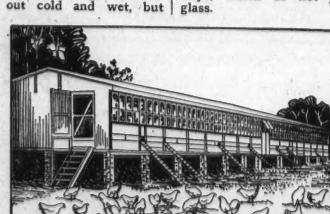

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

USE  
WINDOLITE  
IN  
BROODER  
HOUSES  
LAYING PENS  
DAIRY BARN  
SUNROOMS  
ETC.

Canadian breeders of poultry and live stock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.  
51 Wellington St. W.

TORONTO, ONT.

## SAYS BRITISH NAVAL POLICY IS DANGEROUS

London, England.—Great Britain's war-time first sea lord, Admiral Lord Wemyss, said recently that Great Britain's future as a maritime power was fraught with grave difficulties unless the present naval policy and other policies of the government.

Making the presidential address at the institute of naval architects, Lord Wemyss pointed to the reduction of 46 per cent. in the British naval estimates as compared to 1914, "concurrent with an enormously increased national budget."

"Is this backbone of British industry and national defence?" he asked, "to be sacrificed in order that doles and pensions shall be provided on a more magnificent scale to those who, in many cases, might be usefully employed in developing empire resources and helping to protect our interests overseas?"

"Let us hope that the reaction, which must inevitably come sooner or later, toward fuller realization of our naval requirements may find with the power to effect our national resources in some, money and material, not irretrievably lost through a policy of mistaken confidence and extravagant expenditure in unprofitable channels."

The suggestion was made in parliament recently that the admiralty should take opportunity of the presence in London of Dominions' naval delegates to discuss the question of revising the contributions of the Dominions to Imperial naval defence. Hon. C. G. Ammon, secretary to the admiralty, said the question is more appropriate for the Imperial Conference.

H. Ramsbotham (Cons., Lancaster), who had raised the matter, intimated the real reason for not discussing the question was that the British Government had "pinched" the contributions of those Dominions interested in the Singapore naval base, by announcing that it had been slowed down on this base without saying anything about return of the money contributed. Mr. Ammon did not reply to this.

"While all the self-governing communities of the British Empire have an equal claim on the protective role of the navy, they take widely varying views of their obligations towards the cost of Imperial defence," remarked the Weekly Review, Truth, recently.

The statement was provoked by study of the memorandum on respective contributions of Great Britain and the Dominions, released by the first lord of the admiralty last week. This showed the expenditure per capita in Britain was \$5.66; Australia, \$1.83; New Zealand, \$2.47; Canada, 37 cents; South Africa (white only), 22 cents.

An interesting manner of expressing these interests is the proportion of expenditure on naval defence to the value of the import and export trade protected." Truth continues, "The moral seems to be that neither Canada nor South Africa think there is the faintest prospect of another naval war, and that it is only wasting money to provide against it."

**Unemployment In Ontario**  
Ottawa.—That there are nearly 40,000 unemployed men and women in the province of Ontario, or double the number registered at the same time last year, was the statement by General Superintendent H. C. Hudson, of the provincial employment services, who concluded an investigation into conditions.

**Will Attend Passion Play**  
Oberammergau.—Prime Minister Ramsay MacDonald, of England, has ordered tickets for himself and family for the Passion Play to be presented here this summer.

**Duchess Takes Up Aviation**  
London, England.—The Duchess of Bedford, who is 65 and an aviation enthusiast, made her first solo flight in her own baby plane at her home, Wrenbury Abbey, Bedfordshire.

Spain is preparing to take a national census next spring.

W. N. U. 1833

## For Royal Ranch

Shipment Of Thoroughbred Stock Arrives From England

Saint John.—Seventy head of the finest thoroughbred stock arrived here from England destined to go forward by the Canadian Pacific Railway to the Prince of Wales' ranch in High River. This is the first shipment made to the ranch for four years, and great care has been taken by Professor Carlyle in his selection of the animals to secure the very finest types.

The 40 pedigree Shorthorn cattle, all of which have passed the extreme tuberculin test, are quite the best shipment that has ever been brought to Canada in my experience," Professor Carlyle said. They are the descendants of the progeny of the most famous Scottish and English breeders as well as a selection of nine two-year-olds and three yearlings, heifers from the home farm at Stroke Clinaland, Cornwall, which are of the Prince's own breeding.

These heifers are of certain notable Shorthorn families not at present represented on the ranch.

Included in the contingent are 30 Hampshire Down sheep, three of which were prize-winners at every agricultural competition in which they have appeared. These are to improve and supplement the herd on the ranch at present, which has enjoyed such success, rams having been sold and supplied to ranches from Texas to the Peace River.

## Peace Memorial Park

**Money To Be Raised By B.C. School Children Donating Ten Cent Pieces**

Vancouver.—Money subscribed in ten-cent pieces by the school children of British Columbia will be devoted to laying out of a peace memorial park on the Canadian side of the Peace Arch at the international boundary between British Columbia and the state of Washington, it was decided at a meeting here of the International Peace Memorial Association.

The United States end of the Pacific highway is being diverted to the Peace Arch, and the Department of Public Works, at Victoria, is changing the Pacific highway from its present position to the right-of-way of the arch.

The work of the International Peace Memorial Association will be to establish a magnificent park area on the Surrey side of the line. The Dominion Government has agreed to turn over certain lands there for a park.

## Eastern Canada Interested

**Ontario Grain Growers Plan To Enter World Grain Show**

Toronto, Ont.—Eastern Canada grain growers have already started plans to enter the world grain show at Regina, still two years away.

A few smattering price lists which have found ways into agricultural centres here have resulted in a flood of requests for more and these requests are being met by the Canadian Wheat Board, the national grain headquarters.

Seven of the leading grain growers of Perth County, two of them consistent winners in Ontario competitions, recently declared at Stratford that they have already started developing seed for the world show. Middlesex farmers have also started organizing.

## Might Take Canadian Lumber

Ottawa, Ont.—A party of British Columbia manufacturers, who recently visited Australia and New Zealand, have been in conference with Hon. James Malcolm, Minister of Trade and Commerce, and said a friendly attitude to Canadian products was observed and it is believed that if a revision of the Australian trade agreement was considered, Australia might be prepared to give a preference to Canadian lumber.

**Floods Threaten Manitoba Farms**

Winnipeg, Man.—Rising river-levels west of Winnipeg, forcing farmers to abandon their ice-floes in an effort to obtain relief from threatening floods. Sudden mounting of the level of the Assiniboine River at Poplar Point, about 40 miles west, promises to immerse miles of farmland unless the ice is allowed to flow free.

## Visits Birthplace

Mrs. Almee Semple McPherson, noted evangelist, who, heading her pilgrimage to the Holy Land, stopped at London, Ont., her birthplace, to mark a ballot showing how she would determine six contentious problems of the day.

## Canada's Relations.

### With Russia

**Are Very Similar To Those With Other Countries**

Ottawa.—Diplomatic relations between Canada and Russia are similar to those existing between the Dominion and other countries with the exception of those countries in which Canadian legations are located. This statement was made in the House of Commons by Premier Mackenzie King. Russia, the prime minister stated, had enjoyed certain special diplomatic privileges which had been discontinued several years. The result of the discontinuance of these special privileges, Premier King stated, was that relations with Russia, diplomatically, were on the same footing, as with Austria, Italy and such countries. A Canadian desiring to go to Russia, the prime minister remarked, could secure his passport in Ottawa, and have it issued by Russian authorities.

## Miners Will Not Strike

**Lethbridge Men Decide To Apply For Board Of Conciliation**

Lethbridge, Alberta.—There will be no strike in the Lethbridge minefield. The result of a vote announced at a meeting of the miners was 278 for conciliation and 142 for strike action.

The miners will now apply for a board of conciliation under the Leinenweber Act to consider their demands, which include a small increase in wages and recognition of the Mine Workers' Union of Canada.

## New Fuel Oil For Planes

Hartford, Conn.—A new device for an aeroplane motor which permits use of oil as fuel has been successfully demonstrated by the Pratt and Whitney Aircraft Company. The device eliminates the usual carburetor and intake system of the gasoline engine by a new system of direct fuel injection.

## Distinguished Visitors

Rt. Hon. Lord Eustace Percy, seventh son of the seventh Duke of Northumberland, and president of the Board of Education in the Baldwin ministry, accompanied by Lady Percy, is shown here on board S.S. Duchess of Atholl, at Saint John recently. The distinguished couple are on a visit to Canada and the United States, where Lord Percy will inaugurate a series of lectures at Yale University on Anglo-American relations.

## National Fuel Policy

**Matter Brought Up In House Of Commons In A Series Of Questions**

Ottawa.—The question of a national fuel policy for Canada is being brought up in the House of Commons in a series of questions propounded by T. L. Church, (Cons., Toronto Northwest). Mr. Church enquired:

"1. What steps have been taken to carry out a resolution which passed the House of Commons in 1926-27 for a national coal supply for Canada by which all coal would be mined and coked under the British flag, whether from Wales, Nova Scotia or Alberta?

"2. Has the attention of the government been called to allegations made of 'sweated labor' regarding coal for Canada from Russia made in the House of Commons, London, on April 7, by Sir Newton Moore, (Richmond)?

"3. What steps does the government propose to take regarding contracts for Russian coal coming into Canada to insure the carrying out of the terms of the aforesaid resolution for a national coal supply, and to prevent Russian coal displacing shipments of Welsh anthracite?

"4. Is the government aware that 25,000 tons of Russian coal have recently been sold to a Montreal firm, displacing coal mined and coked under the British flag."

## Shipped As Waste Paper

**Large Liquor Cargo Seized At Niagara By U.S. Customs Officials**

Niagara Falls, Ont.—A carload of waste paper, billed from Port York, aroused the suspicions of United States customs officials across the Niagara River. Working on the theory waste paper is not shipped such distances, the officials opened the car and discovered more than 1,000 cases of rare wines and cordials, hidden under the layer of waste.

The car was stopped in the river from the lower bridge to the great delight of boat owners. Word quickly spread that liquor was being thrown over and many persons rowed down under the bridge and salvaged bottles which had not broken.

## Natural Resources Bill

**First Reading Of Bill To Ratify Agreement With Saskatchewan**

Ottawa.—The bill to ratify the agreement between the Dominion Government and the Government of Saskatchewan, transferring the unalienated natural resources of Saskatchewan to the provincial government was introduced in the House of Commons recently and given first reading. The only difference between this agreement and the one made with Alberta, Hon. Charles Stewart, Minister of Interior, explained, was a clause providing for submission of certain questions to the courts. This litigation will be delayed for a number of years.

The miners will now apply for a board of conciliation under the Leinenweber Act to consider their demands, which include a small increase in wages and recognition of the Mine Workers' Union of Canada.

## Suggests Pensions For Blind

## WAR VETERANS ALLOWANCE ACT IS ENDORSED

Ottawa.—Broadly speaking, the ex-soldiers' organizations of Canada endorse the War Veterans' Allowance Act, which provides for granting to unemployed ex-service men a certain monthly allowance at the age of 60, said Lt.-Col. L. R. La Fleche, president of the Canadian Legion, to the special parliamentary committee on returned soldiers' problems. The bill provides for granting the "burned out" veterans who is wholly unemployable, eligible for the grant when he has reached 60 years of age.

What was anticipated as a contentious matter was the clause which establishes a departmental committee, under direction of the minister, to control the operation of the act. The minister of pensions, Dr. J. H. King, informed the committee that on this departmental body the veterans would have an honorary member and also honorary members on the various district boards.

Col. La Fleche, speaking on behalf of the veterans, declared that this new provision would be satisfactory inasmuch as it would enable the ex-soldier organizations to keep in touch with the decisions of the committee. He said that the veterans desired it to be made clear that this bill should not have any bearing on the provisions of the Pensions Act.

## New Trade Relations

**Germany To Cultivate New Markets With Adjoining Countries**

Berlin.—Cultivation by Germany of closer commercial relations with her eastern and south-eastern neighbors, possibly at the expense of present trade relations with Canada and the United States and Argentina, was urged by Herman Dietrich, vice-chancellor and minister of economics.

He mentioned that the adverse trade balance with Canada was 216,000,000 marks, with the United States, 796,000,000 marks, and with Argentina, 370,000,000.

"This sends us their surplus agricultural products but decline to buy from us to the same extent. Consequently, readjustment of our commercial relations with the border states is perhaps the most important task of Germany's economic policy, and this applies especially to Poland and Rumania," he said.

## Colonel Ralston Is Returning To Canada

**Hon. Philippe Roy Taking His Place At Disarmament Conference**

London, England.—Col. Hon. J. L. Ralston, head of the Canadian delegation to the naval disarmament conference, with Mrs. Ralston, has sailed on the steamer "Berlin" for Canada. The liner sailed from Southampton for Halifax, where it is due to arrive April 18.

Col. Ralston's place will be taken by Hon. Phillips Roy, Canadian minister at Paris. Pressure of parliamentary duties and work in his department of national defence necessitates the return of the Canadian cabinet minister.

## Hon. Philippe Roy Taking His Place At Disarmament Conference

Ottawa.—Pensions for blind persons living in isolated parts of the country were advocated before the Canadian Federation of the Blind by D. B. Lawley, travelling secretary of the organization.

There are 7,000 sightless persons in Canada, he said, the majority of whom are blind after reaching 35 years of age. The handicap, he explained, weighed much heavier on those living in rural areas. He recommended setting up federal and provincial advisory committees to deal with the welfare of these unfortunate.

## New Post Office For Brandon

A permit for \$130,000 has been issued to cover the erection of the new post office in Brandon, for which excavation work has begun.

## Liberal Association's Annual Meeting.

A large and enthusiastic meeting of Liberals of Stony Plain Riding was held at the Town Hall, Friday, April 11. Reports were received, covering the convention recently held at Calgary; after which the meeting proceeded to elect a new Executive. Plans were laid for a complete organization.

Executives: E. Pinchbeck, Geo Akin, Frank A. Smith, M. McKinlay, Ph. Eberhardt, Gilbert McCauley, F. J. Frayne, Ludwig Goebel, Martin McGinn, Dan Brox, Th. Wudel, John Armbruster, Lewis Sinclair, Dr. Outway, Hy. Tyrrel, J. H. Coates, Otto G. Wudel, Mrs. R. E. Wood, J. P. Gannon, D. C. Brownlee.

## In the Squared Circle.

Mr. Hyrykou, heavyweight champ of Russia and Brightbank, was unable to be present on Friday night at the boxing academy, but there was no lack of material to take his place, as the merry villagers assembled had the pleasure of seeing numerous "gives" before the show was over.

The outstanding bouts were those between J. P. Miller & C. Fuhr, Fred Goddard & Bert Radcliffe, Alec Zeiler & Henry Doughboy. The latter bird seemed to be after the endurance medal, as after he had been thru three or four bouts and got warmed up, he offered to lick anyone present, bar the officer of the law.

A pleasing feature was the work of the juveniles, and some of the kids are pretty nifty; the noticeable ones being Bill Gannon, Hy. Paiter, Rod and Cliff Moses. The two latter seemed to be old-timers at the game.

Others who took part were G. Willie, G. Davis, P. Gannon, L. Miller, Sam Gabel, Blacko Miller, A. Davis, W. Carter.

The club's match-maker is endeavoring to get a sparring partner for Mr. O'Hoffman, as the latter gent is said to have expressed his willingness to meet anyone "if they'll only step into the ring. So, tomorrow night it's likely we'll see the hair fly!"

## After the Boxing Bout.

"Buddie, how did you get that black eye?"

"I was protecting a little boy."

"That's noble; who was he?"

"Me!"

## Mill Closed for Eight Days

Due to the necessary repairing, the Armbruster Mill will be closed down from April 14 to 21 inclusive. The office and yard will be open, as usual.—ARMBRUSTER LUMBER COMPANY.

## Spruce Grove News

Mr Herman Ducholke is leaving shortly for Calgary, where he has been notified of a situation.

At the Community League meeting last week Mr Wm McLeod was elected Pres; Mr L L Piercy Vice Pres; Mr L J Elder Sec; treasurer; and Messrs Jacob Brox, C Brabbins, W J Connolly the executive committee.

Mr J. Brennenstuhl paid a visit to old friends at the Grove on Saturday.

Arrangements are being made to renovate the tennis grounds, as the local Tennis club expects to have a knock-out season.

Mr Wm McLeod has purchased a new 1930 Whippet sedan.

The Spruce Grove school beat an aggregation of players from the Michael school, at baseball, last Wednesday afternoon. The Grove team won, 12-8.

Mr Dan Brox was a delegate from this district to the big Liberal gathering in Stony Plain on Friday last, and took a very prominent part in the session's deliberations.

Mr Fred Hart is the associate teacher from Normal, at the local school this week.

Tomorrow Evg. April 18 the famous movie the Boy Scouts' big Jamboree will be shown at Winterburn Hall. The picture consists of six reels, providing a 2 hour program. Also the film, "Dear Hunting in Alaska," depicting early pioneer days; and a Comic.

On Easter Monday, at 8 p.m., at the Grove's United Church, Rev J. A. Caldwell of Erskine church, Edmonton, will be the special speaker. Communion and reception of members will be held.

There was no service at Peace Lutheran church, here, on Sunday last, the members being in attendance at the Palm Sunday Confirmation services at the St. Matthew's church (Missouri Synod).

Your correspondent is informed that the reward on the lost Maltese cat (advertised last week) has been doubled. Grave doubts are held as to the safety of the feline—this being the open season for making Summer-werst.

After a recent celebration, one of our local businesses is suffering from an attack of rumination. He says "he's aching in every joint, and none of these are speakable."

FOUND, auto plate. Apply at Hotel office.

### CHAPTER VIII.—Continued

The girl laughed, handed him "Captain's Diagnosis," and wiped the top of her greatgrandfather's desk with the dust cloth, as she replied: "I was merely considering the fact that it may have caused Jim Bennett to use his own brains—instead of his mother's."

The doctor pondered for a moment while Charmian watched him, a smile hovering on her lips.

"I begin to see light in the darkness," he said at last. "Your friend Bennett, I gather, possesses a forceful maternal relative who prefers, let us say, the mail-order variety of goods, to the honest home-made product. She must be mentally unbalanced."

Charmian's smile widened, but she flushed also, a fact that did not escape the watchful eye of her companion.

"You are too clever for an un-sophisticated country mind," she said.

"You mean—'unprincipled,' don't you?" he retorted, grinning.

She laughed.

"I had almost forgotten that terrible appellation. Poor Grandma! How it did trouble her. There! this place would look just right if we had a rug before your desk, and a couple of old brass candlesticks on the mantel. And we must shine up the andirons. An antique dealer from Etobicoke wanted to buy them, and Grandma would have consented if I hadn't arrived in the nick of time. She argued that they weren't doing us any good out here, and that the ten dollars the man offered—"

"Ten dollars!" broke in the doctor. "He was a shark!"

Deacon Purdie wanted of a string of beads.

"Possibly," suggested the doctor, "it's a new fashion for deacons, like a Masonic emblem, you understand."

Grandma's lips twitched, while Charmian, at a vision of Deacon Purdie with pale blue beads ornamenting his frock coat as he passed the contribution box, ventured a giggle.

"Don't you see," asserted the old lady, suddenly serious, "that he's making up to Luella Moore, that widow woman with the six children, just like Jim Bennett told me? It's she he wants those beads for, it's she we're expecting come this morning. He's coming for them at two o'clock."

Charmian sank into a chair.

"What possessed you to tell such an awful fib?"

"It's not a fib. To be sure, I wasn't expecting 'em till he suggested it; but I am now. I wanted to see how he'd act when he bought 'em."

"But we haven't any beads; and—"

"Yes, we have," put in Grandma, almost irritably. "It came over me while he was talking—that string of beads Jim Bennett bought for you at the five-and-ten cent store in Portland, when you were going to be a fortune teller at the church fair. They're somewhere 'round,' and you've got to find 'em before two o'clock. It's my opinion that the deacon is going to ask Luella this afternoon, and he'd better have the beads along, or he might weight in the balance when a man goes courting his fifth wife."

"His fifth!" shouted John Carter. "And a church deacon?"

Grandma chuckled.

"You find those beads, Charmian," she commanded, "and don't waste time. They may need to be strung over; and if you could scare up a sort of jewelry box to put 'em in, I think likely Edgar would be more impressed. And see here," she added as the girl arose, "don't you dare let on that they came from the five-and-ten. I'm going to make him pay a dollar for 'em."

"Grandma!" cried Charmian, in a shocked voice; but the doctor laughed.

## Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out to leave me alone. Now my nerves are much better thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too." —Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

## Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Mfg. Co., Lynn, Mass. U. S. A.  
THE VEGGIE, OREGON, U.S.A.

W. N. U. 1833

"Good work!" he said. "A widow woman and six kids ought to be a bargain at a dollar."

### CHAPTER IX.

When Deacon Purdie arrived promptly at two o'clock that afternoon and found Grandma Davis seated placidly in her chair by the window, he little guessed that there were two eavesdroppers in the next room. For the fact, she ignored the deacon with a guiltless and deceiving smile. Though a shrewd business man as a rule, he didn't suspect that at this juncture of his fifth venture into matrimony, he had met his equal in a deal.

"Have you got 'em?" he questioned anxiously, as he stood hesitating in the doorway.

"The beads?" asked Grandma innocently. "Sit down, Edgar, and rest yourself a minute. You look as hot as tophet. You've got some new shoes, haven't you? I heard the squeak when you came up the steps. I guess you bought 'em at Earl and Hovey's. My husband used to say that Earl and Hovey's bought most of advantages his business. When he'd go up and down the aisle on Sundays passing the contribution box, folks would hear the squeak and be reminded of what he had to sell. And you're wearing a new tie, too. Aren't you getting a little old for a red necktie, Edgar?"

The deacon cleared his throat, while one large, hairy hand sought the latest extravagance that adorned his neck.

"Like a bright tie, Grandma. Nothin' like dressin' sort o' snappy on occasions. Now those beads—"

"And yet," broke in Grandma heartlessly, "with poor Sarah only six months in the grave. . . ."

She sighed, and her calla, adverting a moment, repelled sanctimoniously: "Do you consider it's Christian to mourn when our loved ones have gone to a brighter shore? Man was not meant to live alone, Grandma, or to do without those beads." (He glared uneasily at his big silver watch.) "I got a long ride before me, and—"

"Dear me!" smiled the old lady. "I was forgetting what you came for, Edgar. I hope you won't be disappointed, but only one strand came, though they're real pretty. Perhaps it'll be easier for you not to be obliged to make a choice. There!" Grandma lifted a satin-lined box from the broad window sill and held aloft, before the deacon's dizzied vision, a strand of yellow beads. "They're handsome!"

Deacon Purdie hitched his chair a trifle nearer, and reached for the bauble—removed his long-distance spectacles, and scrutinized the proposed purchase minutely.

"Do they come high?" he questioned after a serious moment.

"That depends on what you expect to pay for 'em," replied the old lady briskly. "If you were going to donate 'em to a church fair, say, why you might hesitate; but if they're a gift to a lady friend, or some dear, loved relatives, Edgar, why that's a different matter. They're worth two dollars."

"Two dollars!" he exploded, in genuine consternation. "Did you say two dollars, Grandma Davis, or have my ears deceived me?"

"Your hearing is all right, Edgar, and you can be thankful for it, too, a man of your age. Beads are stylish these days, and the price maybe a little bit, inflated." "Inflated?" murmured one of the eavesdroppers in the next room. "Gosh!" "And if—"

The deacon aroan dazedly, reaching for his hat.

"It's too much to expect of a man, Grandma," he said regretfully. "I had no idea they come so high. Maybe I could use something I got at home, or—"

"If it's for a present, Edgar," said the girl in Grandmotherly soberity, "I wouldn't risk any second-hand junk from 'round the house. Now you look here, maybe we'll come to terms."

"I'd give a dollar for 'em," admitted the girl.

"Corns INSTANT relief! PUTNAM'S Corn Extractor

ted the deacon grudgingly, "though such a waste of money seems almost sinful, and not one cent higher will I go."

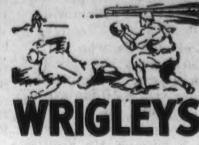

Grandma reached for the beads and began arranging them carefully on her satin bed.

"Well, I'm sorry, Edgar." Her tone was definitely final. "But you wouldn't want me to lose money on the transaction, would you?"

"What did they cost you, Grandma?" queried the deacon warily, and sat down again. "I—I might on a pinch give a dollar and a quarter."

Grandma sniffed.

A 5¢ package may save you from going to sleep at the wheel of your car.

"After Baby Came I Was Weak, Skinny, Gained 22 lbs."

"After baby was born I was very weak, skinny. Since taking Ironized Yeast I feel fine. Gained 22 lbs." —Mrs. Linda E. Beld.

Thousands write new Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ugly habits all out! Body limbs get strong and rounder. Melody, voice clear and rosy like magic. Nervousness, indigestion, constipation vanish overnight. Sound sleep, new pep from yeast.

Two great tonics in one—special weight-building Malt Yeast and strengthening Iron Pleasant little tablets. Far stronger than unmedicated yeast. Results in half time. No yeasty taste, no gas.

So quit being skinny," tired, unattractive. Get Ironized Yeast from your druggist. It's great tomorrow. Money back from manufacturer if not delighted with quick results.

### A Japanese Discovery

#### Doctor Says Long Eyelashes Are Sign of Good Vitality

Long eyelashes are considered to add to the charm of a face. But they are, according to a Japanese physician, a sign of weak vitality. This doctor says that consumptive children have lashes twice as long as those of healthy little ones. While a normal baby's eyelashes grow about as eight of an inch during its first year, tiny sufferers from infantile diseases have at the end of twelve months lashes twice as long. These discoveries were made in a hospital attached to one of the Imperial Universities.

### True dyes are easiest to use!

#### Arguments in Favor of Federal Aid For Transcontinental Highways

The prime minister is partly—and, Westerners believe, only partly—right when he tells the House that road building is a provincial responsibility. It could be proved by that bulwark of the Canadian constitution, the British North America Act, that road building is an affair for the provinces, just as the prime minister says. But the draftsmen of the act no more anticipated the coming of the automobile than they did the entry of women into politics and parliament. Yet, while the market roads and the byways of the provinces are responsible, surely, if the transcontinental railways are the concern of the Dominion of Canada, why not transcontinental highways, in these days of universal auto travel? —Calgary Albertan.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they are not to be beaten out of the market. They thoroughly cleanse the stomach and "bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests."

#### Polite To Foreigners

A movement has been initiated at Dresden, Germany, to have the school children of Saxony taught to be especially polite and helpful to all foreigners. Hotel owners and others interested in the tourist traffic are behind the movement.

### Stony Plain and District.

Tomorrow (Good Friday) is a public holiday. All places of business in Stony Plain will be closed.

Mr Andy Billitis, who had been clerking at the Royal Hotel for a year, left on Saturday for a visit with his brother in Pittsburgh, Pa.

The new clerk at the Stony Plain Hardware is Mr Fred Patterson of Edmonton.

Mrs A V Carter has been taken in to an Edmonton hospital, for treatment.

Dr Walton is building a residence on First St., just west of My Henry Opperts-hauser's residence.

The entire lower deck at the Royal Hotel is being re-floorered by Contractor Elmer Anderson.

The Good Friday service at the local United Church will be held at 11 a.m. The Rev W Hollingsworth, of the Metropolitan church, Edmonton, will be special speaker.

These Normalites are, this week, associate teachers at the following schools—Trevor Scofield and Bev. Facey, at Blueberry; Chester Lambertson at Glory Hills; William Mills (of Inga) at Garden Valley.

See Meeklenburg, the well-known Edmonton Optician, at the Royal Hotel, Stony Plain, on Tuesday, May 13th. The very best and latest styles and at moderate cost. Edmonton office, Suite Six, 10170 101st St. 09

### Confirmation Service.

At the service on Sunday last, at St Matthew's church (Missouri Synod) the following young people were confirmed and admitted to membership in the church, by Rev E Eberhardt, the pastor:

Lydia Ulmer, Martha Goebel, Rosie Goerz, Emma Treit, Lydia Hennig, Rosa Munsterman, Viola Goerz, Emma Heichner, Louise Schulz, Christina Schnetz.

Alfred Lutz, Henry Schultz, John Baderweiden, Edw. Mayer, Oscar Opperts-hauser, Otto Wu dell, Otto Miller, Edward Duchschohl.

### Moose Notes

The finishing touches are being put on the new Moose Hall, next the Royal Cafe, on Main St. The 30 x 50 room has been ceiled with fir and the walls paneled in the old English style, while a birch floor has been laid, oiled and waxed in preparation for the opening event. The dance floor will accommodate the largest crowd which has gathered in town or district. The opening, on Easter Monday, April 21, will be a long-remembered event in the local Moose annals. An effort is being made to engage the famous Kazoo Band of Edmonton for this occasion.

### The Royal Cafe's New Ice Cream Parlor.

The opening takes place on Saturday next of the new ice cream parlor at Larson's Royal Cafe. Barth's orchestra will be present in the evening from 7 to 9, to furnish music. The new parlor has been fitted up with booths, which insure privacy. The new layout is sure to prove an attractive place of entertainment during the coming season.

### Calendar.

APRIL—  
18—Good Friday.  
18—Service at United Church at 11 a.m.  
18—Boy Scouts' Jamboree 6-reel picture, Winterburn Hall.  
19—Opening of the new ice cream Parlor at the Royal Cafe, with Barth's Orchestra.  
21—Opening of the new Moose Hall.  
24—Fred Schellenberger's Sale.  
MAY—  
13—Mecklenburg, Optician, at the Royal Hotel.  
17—Auction sale of land for taxes by Inga M.D.  
24—Hilborn U.F.A.'s Picnic.

### Church Services.

English Lutheran service in Stony Plain next Sunday, 7.30 p.m. United Church service every Sunday Evng. at 7.30.  
Reform Church, Glory Hills—Easter Sunday service at 11 a.m. at Duffield, Easter Monday at 11 a.m.; Good Friday at 11 a.m.

### Holborn Happenings.

The U.F.W.A. dance in the Hall last Friday night was well patronised. Barth's sup-  
plied the music.

To celebrate their silver wedding—25 years of married life—a large number of their friends and neighbors met, last Sunday, at the home of Mr and Mrs H J Woodley, at Holborn, to congratulate this worthy couple on achieving this distinction. All sat down to an elaborate dinner, after which the younger folk amused themselves in various ways. The honored couple were the recipients of numerous presents suitable to the occasion.

The meeting of Holborn local of the Dairy Pool proved to be very interesting. There was a good attendance.

### Mewassin Musings

Most of the schools around here will shortly begin playing baseball. The first game is likely to be played between Mewassin Invincibles and von Hindenburg's Highlanders. The Chief of the Hieland Clan has kindly offered his services as umpire.

Hoot mon! dinna ve hear the pibroch calling for the big Hieland gathering.

Henry Henkly has rented the Osterman farm, and has started working it.

Several welcome showers this week have cheered the hearts of farmers in this district.

### Used Fords to be Guaranteed

Used cars sold by Ford dealers are to be given the Ford guarantee, and to secure this their used car departments will be subjected to inspection by Ford representatives, and the cars sold must be able to fulfil what is claimed for them. Dealers who undertake selling under these conditions will be given authority to advertise themselves as Ford used car dealers, and their service guaranteed.

### Teachers' Convention.

The 20th annual convention of the Alberta Educational Assn. which meets in Calgary next week, offers teachers and others interested in education an opportunity to meet outstanding ability and reputation in Dr Boyd H Bode of Ohio State University, whose "life work is the training of teachers."

## NEW FORD PRICES.

## Here and There

(506)

From obscurity to world power is the record of Japan within the past few years. Dr. Tokuo Kamo, Tokio University professor and chairman of the Japanese National Committee on world power conference, has been to Canada and the United States and a passenger aboard the Empress of Asia. He attributed the growth of his country to her progress in engineering.

The British Boxing team which has played 16 matches in Los Angeles, won the last two, and are now five and winning eleven of the games, sailed for England aboard the Duchess of York recently. They came out to win the American Boxers' Cup trophy, but the five games lost were in that event, and they must wait next year for another attempt.

Seventeen European races contributed songs, folklore and handicraft work while inhabitants of Labrador, the Arctic Circle, the Mackenzie and British Columbia Indians furnished their quota towards the brilliant success of the Great West Folk Dance, Folk Song and Storytelling Festival, at Calgary, March 19-22. The Premier of the province, the Lieutenant-Governor and D. C. Coleman, vice-president of Alberta, Louis J. M. Gibbons, General Publicity Agent, representing the Canadian Pacific Railway, gave inspirational addresses in this effort to "broaden, stimulate and elevate Canada's national consciousness.

Recuperation of Europe from economic depression of the war and the return of European nations to active and formidable competition in world's production is making it more and more essential for Canada and the United States to develop the vast potential markets of the Orient," said Louis Gauthier, publisher of the New York Financial World, who sailed from Vancouver recently aboard S.S. Empress of Asia for China and Japan.

Widespread interest aroused in the United States as well as Canada by the musical programmes broadcast by the Canadian Pacific Railway on Friday evenings over its transcontinental network have led to negotiations between the railway and the National Broadcasting Company of New York, under a Canadian traffic deal, to supply WJZ and associated stations with a series of Canadian programmes made in Canada by Canadian talent. Five million receiving sets in the United States and 20 million will be reached by this extension which commenced first week of April.

Dairying was a profitable industry in the three prairie provinces of Canada last year when its value totalled \$57,629,000. In eleven of the large exhibitions held throughout the country during that year these three provinces were awarded eighty per cent of all first prizes in butter and 86 per cent of all prizes over half of which went to Manitoba.

According to a recent compilation made by the Canadian Government Bureau of Statistics, the greater part of the occupied farm lands of Canada as a whole, including both improved and unimproved land, as well as land in the towns, houses, barns, stables and other farm buildings is returned as \$31 per acre for the year 1929.
